Posture & Pressure Care

The Riviera offers a range of posture and pressure care solutions. Medium pressure care is standard with the ability to accommodate high risk air and gel solutions.

Multiple Back Options

The Riviera is available with multiple back options allowing any user to find comfort. Zipped rear access allow fibre adjustment which can be beneficial to postural conditions.

Removable Seat Wrap

The combination of a removable seat wrap and seat insert can accommodate high risk gel and air solutions. The removable features offer quick and easy access when cleaning is required.

Additional Back Options

2-Tier Drop Back

A classic fibre filled back cushion provides a soft feel and maximum comfort. The 2-Tier Drop Back comes fully adjustable with zip access at the rear to offer bespoke support around the back area.

Vertical 2-Tier Drop Back

A fibre filled back designed for a comfortable feel and to aid in the reduction of pressure around the mid-back and spinal areas. Beneficial to users with more complex postural needs such as Scoliosis and Kyphosis.

Fibre Lateral Back

A soft fibre filled Lateral Back with a soft fibre filled headrest. This will not only provide comfort, it also will help to maintain a healthy mid-line position from the hips upwards, which is key for good posture.

Foam Lateral Back

A firm foam filled Lateral Back with a soft fibre filled headrest. This will not only provide comfort, it also will help to maintain a healthy mid-line position from the hips upwards, which is key for good posture.

Variable Cushion Inserts

Pool seating can affect a clients well-being, so providing the correct seating position and pressure relief is vital, and this starts by ensuring the stability of the pelvis.

The Riviera is built to accommodate a variety of air/gel solutions for high risk users combined with the versatility of the back options can enhance a clients posture.

Profile Beds

Channel Super Low Bed

The Channel Super Low bed offers an ultra-low platform height of just 10cm from the floor.

It is an electrically adjustable wooden bed with adjustable back rest and foot rest sections. The easy to use handset features a safety stop mechanism to help prevent entrapment under the bed frame when lowering below 30cm. In order to continue lowering the bed to the optimum 10cm the user must press a separate button. In addition to an Auto-contour Chair function that allows for effortless positioning and prevents the patient sliding down the bed, the Channel Super Low Bed also features auto-regression, ensuring minimum pressure is placed on the sacrum region when the bed is profiled. The Apollo Super Low also has the added benefit of an integral extending section that allows the bed platform to be increased in length by 15cm.

Angle/Tilt

Angle of back rest: 70°
Angle of thigh rest: 35°
Electrically operated backrest, height, tilt and knee break

Aid/Options

Remote handset control
Individually lockable castors

Cleaning

Easy clean, low maintenance

Profile Beds

Channel Profile Bed

The Channel Profile Bed, is easy to use and very competitively priced.

The Channel Profile Bed, is easy to use, very competitively priced, and its space saving storage facility is of particular interest to Nursing, Care Home and Community environments. The clearly marked handset is simple to use for both carers and end users alike. Despite its unique foldaway design, this bed may be supplied with bed rails for added security.

Angle/Tilt

Electric backrest raises to an angle of 72°

Aid/Options

Four section bed fully electrically operated
Battery back-up option

Cleaning

Easy clean, low maintenance

Profile Beds

Channel Riser Rotate Bed

The Channel Riser Rotate Bed offers greater independence and mobility to the user who is weight bearing but struggles to transfer unassisted between standing and sitting.

Featuring all the usual functions of a profiling bed, the Channel Riser Rotate also enables the user to rotate and then tilt the chair to aid the transfer between standing and sitting. In addition to the many benefits of the Channel Riser Rotate an auto-regression function ensures minimum pressure is placed on the sacrum region when the bed is profiled. The Channel Riser Rotate can be set up to allow transfer to either the left or to the right and includes a 'Very High Risk' mattress with a vapour permeable, multi-stretch, high frequency welded cover offering outstanding pressure reduction, comfort and ease of cleaning. The Channel Riser Rotate bed represents excellent value for money and is one of the most cost effective chair beds on the market today for the home care, nursing and residential environments.

Angle/Tilt

Angle of back rest: 70°
Angle of thigh rest: 35°
Electrically operated backrest,
knee break, height, rotate and tilt
